Tickets Tickets Tickets. Swiss Quality.

## HISTORY AND ENVIRONMENT

BSLTicketprint, or «TICKI» for short, was founded in 1985 as a two-man operation and subsidiary of the BSL printing house. Over the years, the small business has grown into a renowned European ticket manufacturer. Today it is still driven by the same passion: to provide a quality made in Switzerland. ISO, FSC and VOC – the environment is important to us. Sustainability has been an integral part of

our company philosophy for a long time. Our printing is alcohol free and we use VOC-free and solvent-free printing inks. Wherever possible, BSL Ticketprint also prints on environmentally friendly paper to promote recycling.

We heat our building with the waste heat from our printing presses, saving a considerable amount of energy and many tones of CO<sub>2</sub>.

Whether you are looking for monochrome or multi-coloured tickets, tickets with magnetic strips, a barcode or a perforation system – we will meet your requirements.

Parking tickets are the perfect platform for advertising, logos – or even pictures to brighten up your customers' day. We offer bespoke services that include paper and plastic cards.

## **CINEMA/MUSEUM TICKETS**

We offer a wide range of different ticket options for cinema or museums. Talk to us today and arrange your tickets for tomorrow.

In collaboration with BSL IT, Ticketprint has developed a unique exhibition system that enables fully integrated exhibition management: Expo-Door.

We record and manage your customer data before printing and collating invitation cards. And, when the exhibition is over, we prepare visitor

statistics, which we then forward directly to the individual exhibitors. You can access your orders and dispatched items online at any time on Expo-Door. Our flexible system allows us to meet individual customer requirements for each exhibition.
